Orontide Site Services - We're always ready!

Are you ready for fast, efficient and innovative solutions delivered by a skilled and qualified team with both surface and underground mining experience? We are!

Our Site Services Team know how to get the job done so you can continue to do yours. With a diverse range of services available, our Team work seamlessly with your site crew to deliver the results you want whenever and wherever you need them.

Did you know that our Site Services personnel are available and can respond to call outs without delay?

Whether you just need cover during annual or sick leave periods, maintenance of pumps on site or the design and manufacture of mining assets, our Site Services Team will deliver a quick and efficient solution to keep your business running smoothly. Our large team of personnel are multi-skilled with all relevant trade certifications and tickets and have operated in underground mining environments with site specific underground driving tickets, IT tickets and cage operator tickets. With the support of our extensive workshop facilities across WA, personnel and equipment can be mobilised to your site whenever you need them to support where you need it most.
