# Dynamic Hydrocarbon Storage Solutions

## KEY BENEFITS

- ✓ Self-bunded storage for Diesel, ULP, AdBlue (DEF), Lubricants, Coolant and Jet-A1
- ✓ Plug and play with minimal installation time, DIY kits supplied with fully engineered drawings
- ✓ Simple cost-effective transportation, installation and maintenance
- ✓ Custom tanks, complete solutions
- ✓ Unprecedented flow rates and fuel cleanliness
- ✓ Modular systems with endless expansion options
- ✓ Tanks can be easily moved, larger tanks can be lifted and transported with a side loader removing the need for cranes and EWP's onsite
- ✓ Fuel management and tank gauging systems supplied, installed and configured to suit
- ✓ 40-1000l/min flow rate
- ✓ 24Hr technical and after sales support

## STANDARD FITTINGS AND FEATURES

- Rounded corners and cascading roof for strength and longevity
- Sloping floor draining to low point for water extraction
- Raised floor for visual inspections and air movement
- Emergency vents
- Anodised dipsticks
- Ladders and platforms installed without working at heights
- Overfill protection, anti-syphon and high-level alarm
- Tanks range in sizes from 1,000l to 110,000l
